COVID-19 Crisis Management

SOLUTIONS

Handling Crisis

Solution One

Contact-less
thermal scanning

Solution Two

Pandemic
Management

Solution Three

Live Covid-19 Maps

Solution Four

Incident Response
Team

Solution Five

Sanitization Tunnels

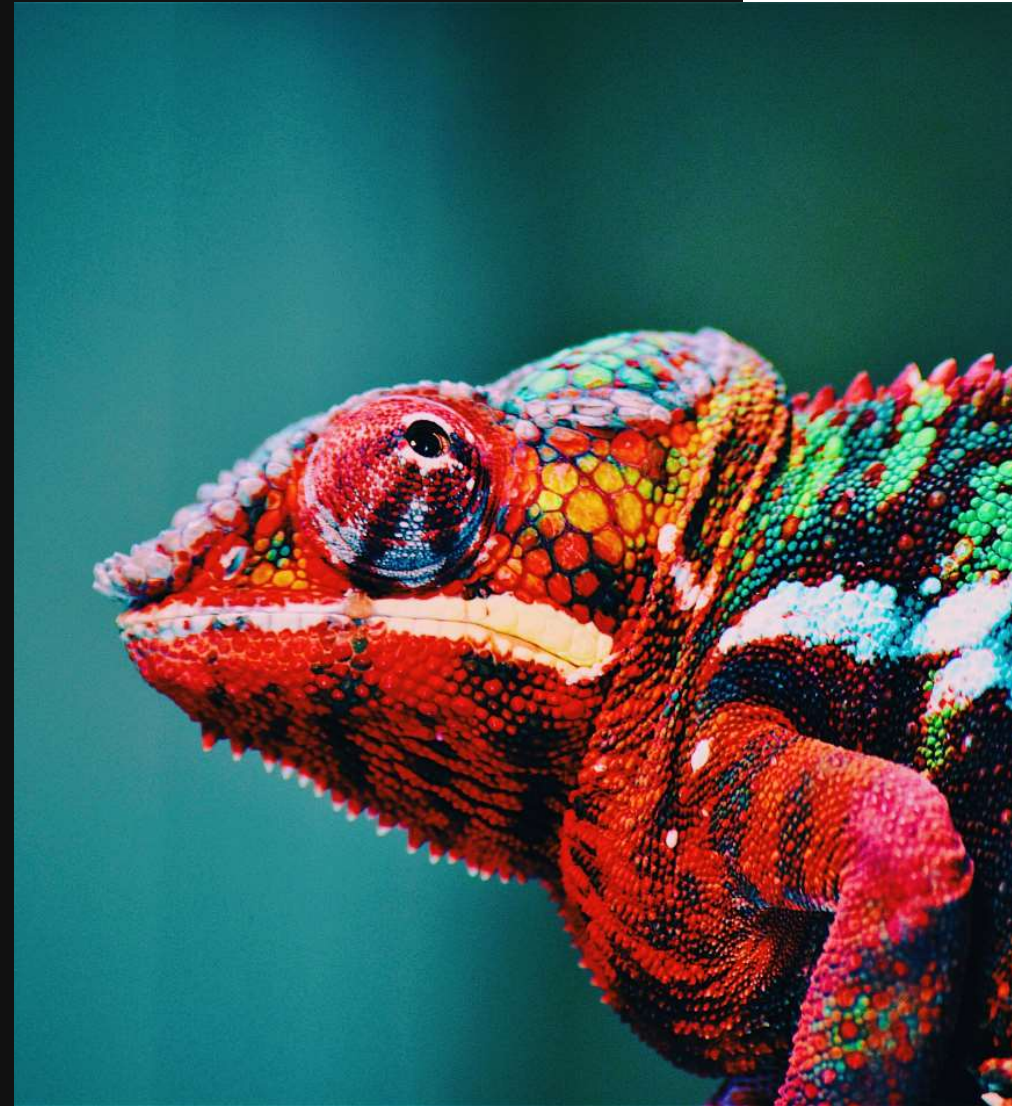

Solution Six

Testing Mobile Van

Solution Seven

COVID Wards

Approach For Crisis Management

Contact-less thermal scanning and temperature screening

Scenarios

- Entry/Exits
- Airports
- Toll Gates
- Office, Schools, Railways

Requirement

- Thermographic Cameras
- Wireless Cameras
- Metal Detector Doors with Cameras

Usages

- Temperature Screening with Access Control
- Group Temperature Screening
- Temperature Screening on Patrol
- Mask Detection

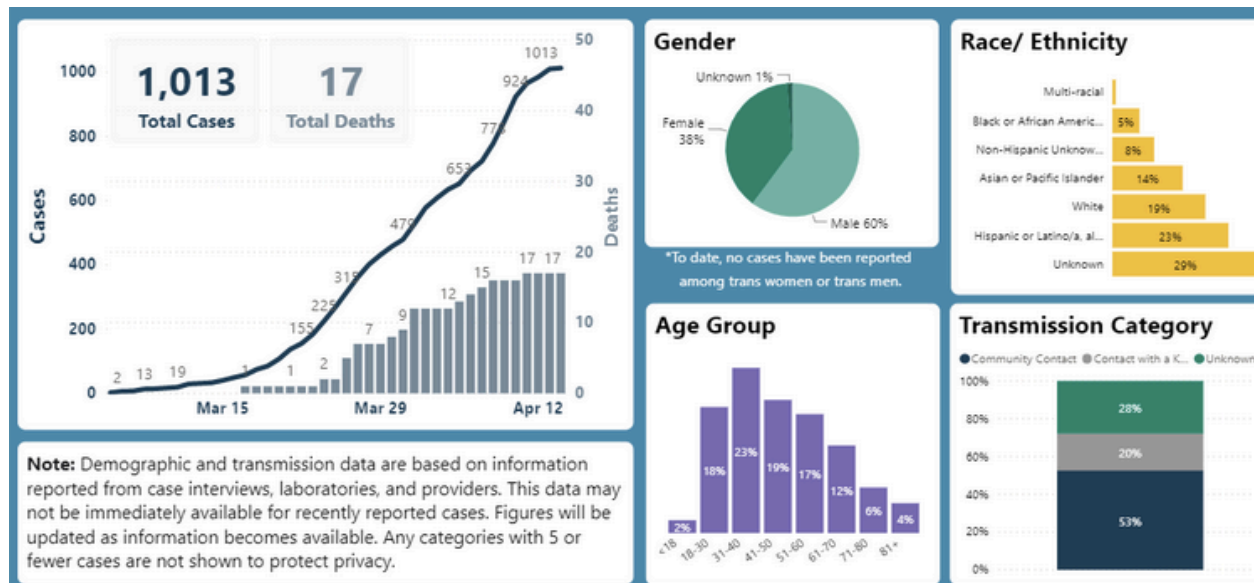

Pandemic Management

Scenarios

- Across the City
- Across the Offices
- Across Public Places

Requirement

- Thermal Cameras
- PTZ
- Bullet / Fixed Cameras
- Big Data / AI Analytics

Usages

- Social Distancing management
- Queue & Crowd management
- Detection of face masks & PPE
- Detection of vehicle of interest
- Integration of body temperature detection cameras

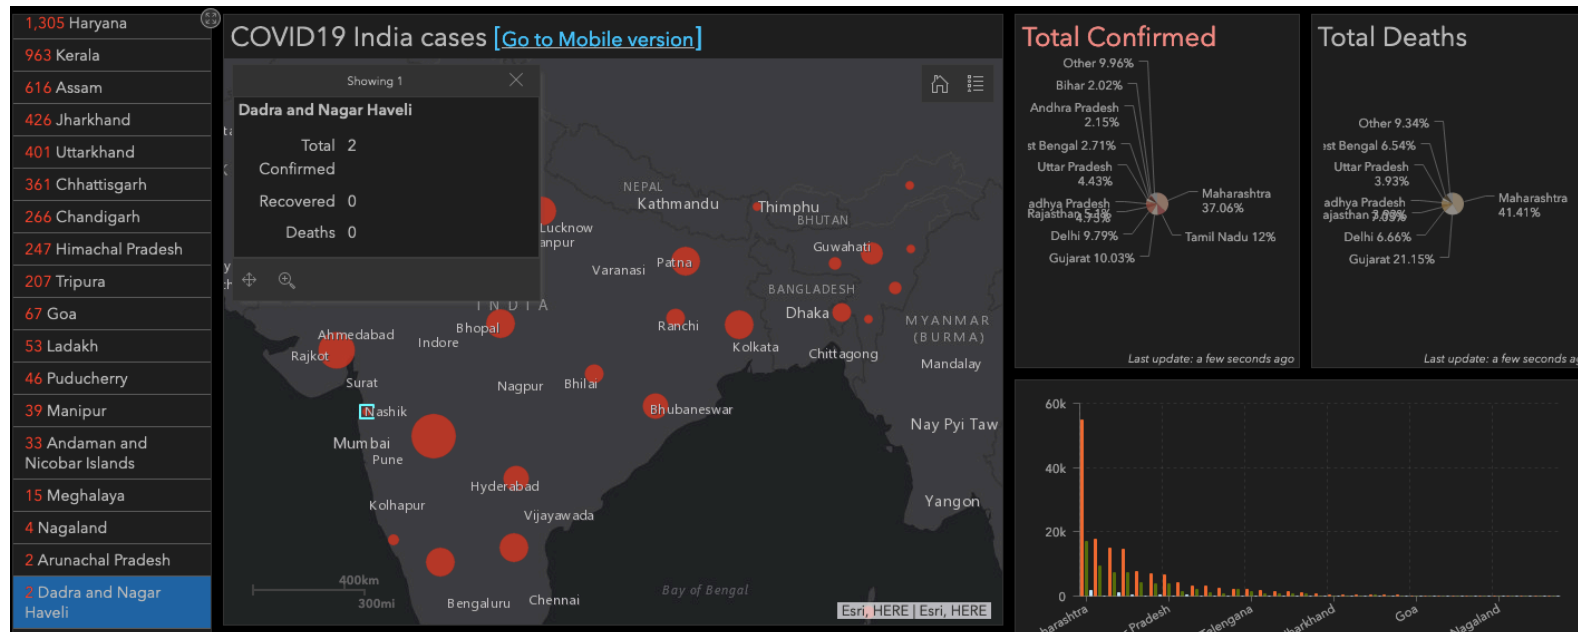

Live Maps for risk areas and response capacity

Scenarios

- Across the City
- Across the Offices
- Across Public Places

Requirement

- GIS
- Location Data
- Predictive Analytics
- AI Analytics

Usages

- Map the cases
- Map the spread
- Map vulnerable population
- Map your capacity
- Communicate with Maps

Incident Response Teams (IRT)

Scenarios

- Disaster Management
- Emergency Management
- Across the City
- Across the Offices
- Across Public Places

Requirement

- Handheld thermal screening
- PPE Kits
- Safety & Precaution Gears
- Sanitization Gears
- IRT Learning/Training for Covid 19

Usages

- Preventive Measures
- Rapid Incident Response

Sanitization Tunnels

Scenarios

- Entry/Exits
- Airports
- Toll Gates
- Office, Schools, Railways

Requirement

- Box Tunnels with Disinfection Kit
- Automatic hand-sanitizers

Usages

- Preventive Measures

Testing Mobile Van/Bus

Scenarios

- Across the City
- Across the Offices
- Across Public Places

Requirement

- Mini-Bus converted to COVID-19 Testing Lab
- IoT Instruments
- Cameras

Usages

- Preventive Measures

COVID Wards

Scenarios

- Across the City
- Across the Offices
- Across Public Places

Requirement

- Rooms with Cameras
- Nurse Call Systems
- Cameras
- Integration with GIS, Pandemic Management etc.

Usages

- Preventive care for patients
